

holland

These pavers are simple in design and timeless in appearance. You get the look and feel of classic pavers plus the convenience of interlocking pavers.

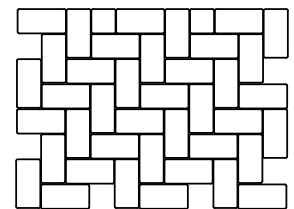

This system of pavers gives you limitless artistic design, flexible durability and is tastefully designed for discriminating developers or builders in the competitive market who want their projects to reflect quality.

Please note: All the packaging configurations as well as specifications may be found on the Barkman Concrete Specifier & Ordering Guide that is updated every year. Here are a few examples of patterns and borders.
